New Warfighting Forum for Signaleers ---- "The Link"

Fellow Signaleers!

Inspired by the success of StrykerNet, DA tasked various echelons and every school/center to establish a proponent warfighter forum.

We call ours "The Link" Signal Warfighter Forum.

The goal is to provide a "one-stop start point" for definitive, accurate Signal Regiment information and to collaborate with a Signal Regiment that is worldwide. We're IOC as of April 09, but we continue to analyze feedback from the commanders/G6/S6s in the field and student users here at the schoolhouse.

We've partnered with FORSCOM, NETCOM, 7th Signal Command, and LCMC to build our embedded communities on the portal including a focused S6 Community of Purpose, a DOIM Forum, and the very useful Single Interface to the Field [SIF] site to maintain currency on the latest software releases. We're also working with NETCOM based on feedback from the field on what information they require in the Expeditionary Signal Battalion.

Share:

- Signal observations, insights, and lessons learned so we can track, resolve issues where possible, and share with the force.
- SOPs and other documents from units like 35th Signal Brigade and 4th ID to stop re-inventing the wheel.

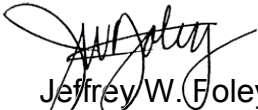

Preview:

- "Did You Know?" headline announcements such as new software releases, available training, and newly published doctrine.
- "Upcoming Events" across the regiment such as collaborative sessions with the Chief of Signal and the C4 Tactical conference.
- Top 10 discussions ongoing in the forums.

We want "The Link" to be the one-stop starting point for definitive, accurate Signal Regiment information, professional discussion, and distance-learning education through LWNeU. Share what you know. Find what you need.

It's at <http://signal.army.mil/Splashpages/warfighter.html>
